

CHIMERA INDEPENDENT WINTERGUARD

Personal Practice Agreement

As a member of Chimera Winterguard, it is imperative that you realize that part of your personal responsibilities now shifts to what is best for the guard. As a member of Chimera Winterguard, your execution of choreography and work on daily basis is vital to the overall success of the group. It will take EVERYBODY doing their best EVERY day to get us where we want to be. You cannot expect to only work during rehearsals and expect you to improve and expect us not to notice.

Therefore, this agreement is your acknowledgement of your importance to the group and your acknowledgement that you understand how vital it is that you practice outside of rehearsal. With that being said...

Chimera expects you to rehearse for a *MINIMUM* of 30 minutes a day.

You may include 1 scheduled rest day per week and 1 "Crazy Day" per week if needed.

We, obviously, cannot monitor this activity, but we CAN tell if you have or have not been practicing. If the staff deems that a student has not been practicing and thus causes a detrimental effect on the overall success of the group, then the staff reserves the right to suspend that student from performing until such time that the student has caught up, performance level wise, to where the staff feels they should be.

IMPORTANT: This agreement aims to provide an understanding between the member and Chimera of the importance of self-improvement. While this agreement cannot be monitored, integrity and character are core values. Our ethical principles do not change when we think nobody is looking.
